News Release

For Immediate Release: April 9, 2013

Radiology PACS Provider FreedomPACS to Exhibit at the 2013 MASA Annual Session in Mobile, April 12-14
Alabama healthcare attendees to access medical imaging solutions, radiology PACS drawing

SOUTHFIELD, MICH. — Radiology PACS and cloud storage provider FreedomPACS™ is participating in the 2013 MASA (Medical Association of the State of Alabama) Annual Session, April 11-14 in Mobile, Ala. Physicians and healthcare professionals throughout the state will attend the association event, held at the Renaissance Mobile Riverview Plaza Hotel.

The MASA conference offers industry-specific educational and development opportunities to participants, with this year's focus on volunteer medicine. It also allows attendees to network with key product and service exhibitors like FreedomPACS, which provides medical imaging resources to radiologists, healthcare facilities and physician practices.

MASA participants are invited to:
- Visit FreedomPACS (booth #5) to see how its PACS solution, cloud offsite storage and diagnostic Web viewer can help save medical facilities both time and money.
- **Register to win a complete Web-based PACS prize bundle, valued at $40,000.**

For more information or to schedule an appointment, fill out the online form or call 855-740-1130.

About FreedomPACS™ & FreedomPACS Cloud
FreedomPACS (http://www.freedompacs.net) is a cost-effective medical picture archiving and communication system (PACS) that provides convenient, economical access and archiving of images from multiple modalities using cloud technology. This radiology system incorporates DICOM standards and can be accessed on Windows or Mac as well as mobile platforms like iPad and Android.

FreedomPACS Cloud offers secure, HIPAA-compliant off-site storage for radiology images. Available with or without a PACS system, this affordably priced solution harnesses the protection and efficiency of the cloud. It provides instant access and can integrate with other PACS or medical equipment. FreedomPACS is owned by MN Systems, headquartered in Southfield, Mich., a joint venture between a medical software development company and a group of practicing physicians.
